## DUN'S WEEKLY REVIEW

Report Indicate a Steady Demand—Prices Firmly Maintained.

## LABOR TROUBLES HURT BUSINESS

Floods Curtail Railroad Earnings—Coke Production Surpasses All previous Records—Footwear Conditions Most Prosperous

New York, June 13.—R. G. Dun & Co.'s weekly review of trade will say: Except in those branches of business that are quiet at this season reports indicate a steady demand and prices of commodities are firm. Manufacturing returns are irregular. Idleless in textile lines generally offsetting the good effect of activity elsewhere. Earnings of railroads reporting for the first week of June are only 2 per cent larger than last year and 7.8 per cent greater than in 1901, a condition due entirely to western floods.

That furnace stocks of pig iron increased only 40,000 tons last month, despite the unprecedented output testifies to the great consumption of the steel industry. Quotations are without alteration, although much business is delayed by labor troubles. In case of a general settlement of these conflicts there would be a resumption of work on many buildings and including the requirements of railroads a heavy tonnage would be sought. It is an evidence of confidence in the future that blast furnace operators are forcing production beyond all previous maximum figures. While the demand for structural steel has diminished there is notable inquiry for rails and plates. Machinery and hardware lines are doing remarkably for the season, which is usually quiet in these departments. Coke ovens are surpassing all previous records for activity and the output of anthracite coal promises to establish a new high water mark this year above 6,000,000 tons.

Cotton goods again average slightly higher in price the advances being insisted upon by producers on account of the raw material and in no degree attributable to increased anxiety to place contracts on the part of buyers. Aside from a more liberal demand for print cloth yarn fabrics for converting and printing purposes there is no evidence of activity. On the other hand supplies are not so current as at the mills owing to curtailment of production, not only voluntarily but by strikes and storms. Conservatism prevails among buyers of staple woolsens and worsteds while little interest is shown in new line of light weights for next spring. Insofar as market conditions are concerned carpets are the most satisfactory of the textile products. Footwear conditions continue most prosperous. Leather and hides are strong again and active. Failures this week were 213 in the United States against 162 last year and 11 in Canada compared with 20 a year ago.

Asks Aid in Prosecuting Murderers. Topeka, Kas., June 13.—L. D. Hotch, local county attorney for Cherokee county telegraphed Governor Bailey requesting the assistance of the attorney general in the prosecution of the Deweys for the murder of three members of the Berry family in the northwest Kansas ranch found last week. Attorney General Coleman will go to St. Francis to assist in the preliminary hearing of the Deweys next Tuesday. The Deweys also have employed a formidable array of legal talent. Since the battle of last week and the subsequent arrest of the Deweys the Berry ranch has been suffering greatly from having its fences cut, cattle killed and telephone wires torn down. So great have these depredations become that the ranch managers have called for officers to protect their property.

Conditions Improving at Kansas City. Kansas City, Mo., June 13.—City water was turned on this afternoon. This supply will furnish the city with its first clear water for nearly two weeks and remove danger from the passenger trains between the two Kansas Cities will be established by the Missouri Pacific railroad. The only communication now is by row boat or steamer. This will be made possible by the opening of the Missouri Pacific bridge one of the first that withstood the flood.

Attacked By Fire Bugs. Norfolk, O., June 13.—Shortly after midnight Fred Eversen son of J. M. Eversen heard a noise outside of the house. He went outdoors and was immediately attacked by two men and badly beaten. Investigation showed a cloth stuck in the shutters with coal oil poured over it. There have been several incendiary fires here recently.

Machinists Ordered Out. Huntington, W. Va., June 13.—The machinists and toolmakers of the Baltimore & Ohio railway have ordered all the men out at Hinton, Thurmond and Hamlet, W. Va., and also at Ashland, Lexington and Russell, Ky., until a settlement of the trouble here.

Choked to Death. Postoria, O., June 13.—George W. Prohle aged 65 choked to death on a piece of meat while eating dinner.

## JETT-WHITE TRIAL AT JACKSON

Since the Blind Tigers Have Been Closed There Has Been No More Shooting at Night

Jack on June 13.—A number of contest riders arrived here in Jackson, Miss., yesterday and artists for illustrated papers. Proctor Marshall Lequire has made no arrests for two nights and two days. Since he closed the Blind Tigers there has been no shooting during the night. The face use of weapons in the courts is around these places led to reports of times of and of dead is coming into own a attack the just Court had to rule the non-recess. The trial was held because the witness was unable to go on the witness stand and it was evident that he was still available from some source.

The feature of the trial was the drift of evidence toward conspiracy, implicating county officials and officers and tending to show that Jett and White had no such motives as the conspirator but were simply hired to kill J. B. McQueen who was the attorney for parties contest the election of county officials. The defense during the forenoon attempted to have the case continued on account of the absence of witnesses and again in the afternoon on account of illness of one of the attorneys for the defense. In both instances Judge Redwine ordered the trial to proceed.

From Frying Pan to Fire. Mounts, W. Va., June 13.—James Dudley, a convict from Mingo county ordered released from the penitentiary on a habeas corpus has jumped from the frying pan into the fire. Dudley was pardoned in 1890 by Governor Atkinson upon condition that he never again violate the law, but within a week he made a murderous assault upon Captain A. B. Porter, a Norfolk and Western conductor and was remanded to the penitentiary without trial which the habeas corpus writ now holds should have been given. Sheriff Hatfield of Mingo is here to arrest Dudley upon the latest assault charge and he will come back again to serve two terms.

Woman Murdered. Altoona, June 13.—The almost lifeless body of Mrs. Annie Canavan aged 40 was found in a strawberry patch near her home at Kenney, Elk county, yesterday afternoon mutilated almost beyond recognition. She had been beaten with a pine knot found near by. The woman died a short time afterwards. The murderer escaped leaving no clue. He is believed to have been a tramp who attacked the woman while she was picking berries. Evidence of a violent struggle were to be found showing that the woman defended her honor with her life. She leaves a husband and several children.

Water Falling Steadily. St. Louis, June 13.—The river continues to fall steadily but those who expect to see a sudden decline will be disappointed. The heavy pressure of water against the Broadway embankment in East St. Louis probably will destroy a large section of that street. In some places portions of the street have caved in a large section near Eighth street went down but the street car tracks still hold the street from giving in fully away. The water is sweeping through Broadway steadily and in large quantities and sooner or later will inundate all that portion of the city south of Missouri avenue.

Plan Nipped in the Bud. Indianapolis, June 13.—Sheriff Metzger discovered a plan of federal prisoners to effect a wholesale delivery. It had been planned to transfer him in a special car to Fort Leavenworth, Kas. Acting on secret information the sheriff removed them to other cells and a search disclosed a knife, revolver and other weapons secreted in the mattresses in the beds. The sheriff was informed that the plan of the prisoners was to fight their way to liberty. The removal of the prisoners has been postponed on account of the situation at East St. Louis.

Burned the Body. Parkersburg, W. Va., June 13.—A shocking story comes from Cedar a West Virginia town in the Ohio valley where an old negro suffering from smallpox was found lying in a shock of fodder. It is said that no attention was paid to him or to his condition and that he had neither food nor drink. When he died a hole was dug in the ground the body rolled in and covered up. The fodder was then set on fire.

Relief for Flood Sufferers. Kansas City, Mo., June 13.—At a meeting of the lumbermen of Kansas City it was decided to make an appeal to the lumber dealers and manufacturers of the country for subscriptions for the relief of the Kansas City, Kas. and Argentine flood sufferers. Two thousand telegrams describing the situation in these two cities will be sent to the wholesale manufacturers in the United States.

Relief Fund Growing Slowly. Topeka, Kas., June 13.—Hundreds of houses in North Topeka are as yet uninhabitable. The relief fund is growing slowly but it is not nearly enough to relieve the distress of the refugees. Governor Bailey has not yet designated a time for the special session of the legislature.

Three Laborers Killed. Philadelphia, June 13.—Three Italian laborers were killed on the Pennsylvania railroad near Overbrook a suburb. The men were working on the tracks when they were run down and killed by an express train.

## WEATHER FORECAST.

Western Pennsylvania.—Fair, warmer Saturday and Sunday; light to fresh north winds.

The Courier said  
"Big Dave" was dead;  
But he's alive,  
And we will give  
The lie to all.  
And later to all  
The lies told  
By whom 'twas told.

## HUNTING TROUBLE.

"Who killed Mark Ward?" requires the People's Tribune.  
And it answers to its own satisfaction that Ward met his death at the hands of Homer Stewart; the whisky they drank; the saloon keeper who sold it to them; the judges who granted the saloon keeper's license to sell it; the law making powers who made the laws under which the licenses were granted; and finally, the men, church members and politicians and sinners, who elected the legislators who made the laws.

This is the old song. Because a weak, brutal or vicious person abuses the use of whisky or of other intoxicants, the well-meaning but ill-directed, keepers of the law demand that his prohibition remedy be applied, and that his neighbor be required by law to live according to his cold-water rule of conduct.

It is an old principle of law, established long ago, that a man may not take advantage of his own wrong, and in the same line, that drunkenness is no excuse for crime, but an aggravation of it; in short, a double offense.

The prohibition organ says, "the Sales Grady label bill may strike us right here." So it may. There is certainly plenty of ground for an action. Even a cold-water organ is not privileged to grossly abuse its neighbors at all times and under all circumstances, without end, and hope to escape unscathed.

We fear our esteemed contemporary is hunting trouble, and people who hunt trouble usually find it.

## LET THE DEAD REST.

We regret to notice that The News, in its efforts to be witty at our expense, prints in its editorial column the following thoughtless paragraph:

"Our sympathetic and highly imaginative contemporary, The Courier, insists upon resurrecting one Colonel Crawford, whose surname is said to be William. This man Crawford, whoever he has been, is a personal subject down in the alley. A great lot of the stuff is set up down there and when stuff is scarce a section or two is sprung upon the unsuspecting public. This is wrong and we think the Borough Council ought to pass an ordinance forbidding the publishing of the same matter oftener than six times in any one year."

Our contemporary no doubt considers this "smart" writing; but people of average intelligence and common decency will stamp it as the utterance of one dead to public spirit and patriotic feeling.

In the name of humanity we protest against these sneers and revilings of a gallant soldier. In the name of justice and fair play, we demand that The News hold us and us alone to account for such grievances as it may have against us, and not besetrate in a manner so vile and cowardly the memory of the illustrious dead.

Colonel Crawford was a great man. Upon the tablets of the Nation's history, his name is written near the top. In life, he enjoyed in the highest degree the respect and confidence of the people of Western Pennsylvania, of the Congress of the United States and of the President and Commander-in-Chief of the American army, one George Washington, whom The News may not have heard of; in death, his memory has been honored by anniversary gatherings and his deeds commemorated by monuments, if not by the people of Connellsville, by other people in other sections.

Shame upon the small soul that spits venom upon his grave!

## WHAT INVITES LIBEL BILLS.

The News announces a prominent social event after the following fashion: "Mark S. Hanna conducted his daughter's wedding today as he would a political campaign. The Hanna-McCormick nuptials was attended by all the big G. O. P. politicians of the country. A bid to that event was equivalent to a demand, Marcus rules the roost. He probably had signs placed on the lawn reading 'Keep off the grass,' and no doubt President Roosevelt interpreted the sign as referring especially to himself."

This is not only bad manners, but bad taste. There is no connection between politics and the family relation and well conducted newspapers observe the rules of common decency in such matters. If all the newspapers did likewise, possibly we would not now be threatened by the Grady-Sales libel bill.

The Dunbar township school tax levy has started up the political animals out that way. It's a little early to begin the campaign of 1904, but some people believe in being forehanded.

Big iron sellers practice a stronger market. The wish is probably father to the thought.

The People's Tribune says it is afraid we will stop again and want to become a prohibitionist. We are a "Prohibitionist" today than Editor Lukins. We do not drink nor do we smoke.

There are some editors who seem to be hanging for the honor of being the first victim of the Press Muzzler.

The News, who never misses an opportunity to assure the public of its enterprise, says it knew all about the report of Perry's death all the time and wouldn't print it. The News never heard anything so wild it wouldn't print.

The H. C. Clark Coke Company let a very large hole in the coke trade of the Connellsville region when they returned from the market, but the hole is being filled with zeal and energy.

Wheeling is still looking for that railroad from the Connellsville coke region.

The Dunbar township School Directors say things are higher and that's the reason taxes have to be. The Directors took the wrong plan to increase the taxes. They ought to have secured the ear of the assessor and had the assessments increased instead of increasing the millage.

How they all jumped on us for printing the story they failed to get themselves!

## Where the Law is Unjust.

The enforcement of the new mining law in regard to employing boys under 14 years of age in the mines is "beginning to make itself felt," as some have said. It is doubtless a good thing in general but in some particular cases it goes rather hard, when boys, physically able, are discharged. It stops the \$1 to \$1.25 a day that keeps the family in bread and does the boy an injury. It is said many mothers have appeared at the offices pleading to have their sons taken back. The benefit of such a law can be seen, however, when the weak, sickly child is protected instead of being forced to work.

Jim Begley, Hero.  
Rockwood Gazette.

Sadie Raymon, accompanied by her friend, John Kelley, took a trip to Connellsville last week. They arrived in Connellsville all O. K., but through some misfortune they got lost from one another, and Miss Sadie was confronted by a difficulty to get home. As luck would have it, however, she met the editor of the Fayette Republican, and he picked her up and landed her safe at home, for which he should be rewarded. Whether or not John meant to give her the slip we do not know. If you did, John, don't do it again, for old spinsters are kind of thankful and willing to please.

As the Jury Saw It.  
Washington Reporter.

Uniontown papers have been scolding a jury which recently acquitted a man tried there for murder. Justice often miscarries in murder cases, but taking it for granted that the jury in this case was honest in its rendering, to have returned any other verdict would have been to adjudge the jurymen guilty of perjury. Of course from this distance the case may not be understood as the Uniontown contemporaries understand it, but the principle involved cannot be misunderstood.

Unknown Foreigner Hangs Himself.  
An unknown foreigner was found dead in the fields near Somerset. He had committed suicide by hanging.

### GENTRY BROS' SHOW.

An Exhibition Patronized by the Elite of the World.

The Gentry Bros. famous trained animal exhibition which will exhibit in this city next Tuesday, June 16, is by all odds the greatest show of the kind on the road. It brooks no rivals and acknowledges no competitors. Being popular alike with millionaire and pauper, and appealing to statesman orator, bootblack andurchin, it has the support and endorsement of the masses, and therefore enjoys the distinction of being the only tented exhibition on earth the annually delights the majority of the people of the United States.

Every section of this broad country is visited annually by one of the other of the four Gentry shows and every section alike admires and patronizes the greatest trained animal shows in existence.

### Gaining Many New Members.

The members of the Woodmen of the World in Connellsville are doing considerable hustling these days for new members. The lodge here has a special dispensation for the next sixty days and during that time will endeavor to raise their membership up to half a thousand. The lodges are meeting with the best of success and on the first day of the special dispensation received nearly one hundred applications for membership.

## Bargain Time Here Now.

Things here that we want to sell. Willing to cut the price to get you to buy. Want to do as much business in June as we did in May. Want to keep you in the habit of coming to this store.

### Odd Curtains.

Always the best and prettiest that are first sold down to the little lots—one, two and three pairs of a pattern—all that's left of a kind—and we are willing to part with them for much less than the regular price. Bargains worth paying some attention to.

### Rug Bargains.

Carpet prices and Rug prices for next season are soaring high—chances are they'll go still higher. They'll seem high because there has been no advance at all so far. These we have to offer came to us the other day at old prices.

One dozen Body Brussels and one dozen Axminsters that we can sell you for \$25 each, and one dozen Roxbury Tapestry at \$20.

All full 9 feet by 12 feet. Good strong patterns and worth buying when you stop to consider that no matter where you go you'll have to pay more for these during the coming season.

### Stinson Carpets.

Tapestry at 90c and Velvets at \$1.10. Those of you who intend buying a Carpet this fall will do well to consider these prices. They have held good for several years past, but the coming fall season will see advances on these goods. Every store that sells Stinson's Carpets will have to ask you these advanced prices on the new goods.

Telling you these facts because we have a fair supply at the old prices and because at these prices these Carpets are Bargains. No matter what anyone may tell you, you know there's no Carpet quite so good as a Stinson. Of course these prices mean made, laid and lined.

### Ladies' Skirts

Made of good quality muslin, lace or embroidery trimmed, double ruffle, some with flounce trimmed with hem-stitched tucks, will be sold for \$1.00 and \$1.25 each.

### Ladies' Gowns.

Some plain, some trimmed, good width, made of good quality muslin for \$1.00 each.

### Children's Skirts.

Little Umbrella Skirts, made with two tucked flounces of good muslin, lawn, ruffle and button holes worked in band, so that they can be fastened to their waists.

These Skirts for 60c each.
